③ TRAINING & EDUCATION

New Opportunities:

- **Online Training** –
Introduction to the MUTCD
TMA Operator
- **In-Person Training** –
HFS Installation & Inspection
- **Work Zone Safety App**

Quickly determine both minimum device spacing & minimum # of devices needed for merging, shifting, shoulder, or flagger operations.

Calculate the number of devices you need.

Learn about and apply **best practices** for stationary lane closures and short duration operations.

Customize your results to incorporate local standards.

Set up temporary traffic control areas.
